

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

Journal of Infectious Diseases

Founded by the Memorial Institute for Infectious Diseases

EDITED BY

LUDVIG HEKTOEN AND EDWIN O. JORDAN

IN CONJUNCTION WITH

FRANK BILLINGS      F. G. NOVÝ

W. T. SEDGWICK

Volume 4  
1907

Chicago, 1907

## TABLE OF CONTENTS

### No. 1, JANUARY 1, 1907

	PAGE
A Stomach Lesion in Guinea-Pigs Caused by Diphtheria Toxin and Its Bearing upon Experimental Gastric Ulcer ( <i>With Plate 1</i> ) <i>M. J. Rosenau and John F. Anderson</i> - - - - -	1- 7
Noma: Gangrenous Stomatitis, Water Cancer, Scorbutic Cancer, Gangrena Oris, Gangrene of the Mouth ( <i>With Plate 1a</i> ) <i>George H. Weaver and Ruth Tunnickliff</i> - - - - -	8- 35
The Virulence of Diphtheria Organisms in the Throats of Well School Children and Diphtheria Convalescents <i>M. E. Pennington</i> - - - - -	36- 50
Relation of the <i>Bacillus mucosus capsulatus</i> Group to Rhinoscleroma, and of the Various Members of the Group to One Another <i>Roger C. Perkins</i> - - - - -	51- 65
Spontaneous Phagocytosis of Fusiform Bacilli and Influenza Bacilli <i>Ruth Tunnickliff and David J. Davis</i> - - - - -	66- 72
Hemophilic Bacilli—Their Morphology and Relation to Respiratory Pigments <i>David J. Davis</i> - - - - -	73- 86
The Pathogenicity of <i>Streptococcus lacticus</i> <i>P. G. Heinemann</i> - - - - -	87- 92
A Study of the Pneumococcus, with Especial Reference to the Inulin Test <i>Jane L. Berry</i> - - - - -	93-107
A Study of Latent and Recurrent Malarial Infection and the Significance of Intra-Corpuscular Conjugation in the Malarial Plasmodia ( <i>With Plate 2</i> ) <i>Charles F. Craig</i> - - - - -	108-140
Observations on the Virus and Means of Transmission of Rocky Mountain Spotted Fever <i>H. T. Ricketts</i> - - - - -	141-153

### No. 2, APRIL 10, 1907

A Spirochaeta in Primary and Transplanted Carcinoma of the Breast in Mice ( <i>With Plate 3</i> ) <i>Harvey R. Gaylord</i> - - - - -	155-170
---	---------

	PAGE
A Spirochete in Mouse Cancer, <i>Spirochaeta mycrogyrata</i> (Löwenthal) var. <i>Gaylordi</i> Gary N. Calkins - - - - -	171-174
Purpura Hemorrhagica with Generalized Infection with <i>Bacillus paratyphosus</i> E. R. LeCount and A. J. Batty - - - - -	175-186
Systemic Blastomycosis ( <i>With Plate 4</i> ) E. R. LeCount and J. Myers - - - - -	187-200
A Comparative Study of Four Strains of Organisms Isolated from Four Cases of Generalized Blastomycosis ( <i>With Plates 5 and 6</i> ) Walter W. Hamburger - - - - -	201-209
Diphtheria: A Statistical Study of Certain Laboratory and Clinical Observations Henry Albert - - - - -	210-218
On the So-Called Physical Chemistry of Hemolytic Serum Wilfred H. Manwaring - - - - -	219-222
The Trypanosomes of Mosquitoes and Other Insects ( <i>With Plates 7-13</i> ) Frederick G. Novy, Ward J. MacNeal, and Harry N. Torrey -	223-276
A Study of the Nature of Streptolysin Gustav F. Ruediger - - - - -	277-281
A Substitute for Potato as a Culture Medium P. G. Heinemann - - - - -	282-284

---

No. 3, JUNE 15, 1907

Human Pneumococcal Opsonin and the Anti-Opsonic Substance in Virulent Pneumococci E. C. Rosenow - - - - -	285-296
Isoagglutination of Human Corpuscles Ludvig Hektoen - - - - -	297-303
The Streptococco-Opsonic Index in Scarlatina Ruth Tunnickiŕ - - - - -	304-312
The Opsonic Index and Vaccine Therapy of Pseudo-diphtheric Otitis Alice Hamilton - - - - -	326-332
Phagocytosis and Opsonins in the Lower Animals G. F. Ruediger and David J. Davis - - - - -	333-336
Contribution to the Statistics on the Presence of Diphtheria Bacilli in Apparently Normal Throats Anna L. von Sholley - - - - -	337-346
Tuberculosis of the Placenta Aldred Scott Warthin - - - - -	347-368

# TABLE OF CONTENTS

vii

	PAGE
Leukemia of the Common Fowl ( <i>With Plate 14</i> )	
<i>Aldred Scott Warthin</i> - - - - -	369-381
A Method for the Simultaneous Passage of Many Paraffin Sections through the More Difficult Stains	
<i>Francis Peyton Rous</i> - - - - -	382-384
An Attempt to Produce an Atypical Epithelial Growth by Injection of Scharlach R. in Olive Oil	
<i>Clarence Snow</i> - - - - -	385-396
Notes on the Differentiation of <i>B. coli</i> in Water	
<i>Francis F. Longley and Warren U. C. Baton</i> - - - - -	397-416
On the Physiological Nature of the "Glandular Hyperplasias" of Dog's Thyroids, with a Detailed Report of a Case Typical of the Group	
<i>David Marine</i> - - - - -	417-425
Observations on the Staining of Encapsulated Bacteria with Particular Reference to Pneumococci and Streptococci -	
<i>Leo Buerger</i> - - - - -	426-433
On the Presence of Hemolytic Substances in Edible Fungi	
<i>William W. Ford</i> - - - - -	434-439
Experimental Investigations Regarding the Etiology of Dengue Fever ( <i>With Map</i> )	
<i>P. M. Ashburn and Charles F. Craig</i> - - - - -	440-475
The Effects of Egg-White and Its Split Products on Animals	
<i>Victor C. Vaughan and Sybil May Wheeler</i> - - - - -	476-508
Observations on Natural Immunity and Susceptibility to Diphtheria Toxin	
<i>Herbert M. Goodman</i> - - - - -	509-540

## No. 4, NOVEMBER 15, 1907

Antibodies to Glucosides, with Especial Reference to Rhus Toxicoden- dron	
<i>William W. Ford</i> - - - - -	541-551
The Specific Nature of Anaphylaxis	
<i>M. J. Rosenau and J. F. Anderson</i> - - - - -	552-557
Studies in Meningococcus Infections	
<i>David J. Davis</i> - - - - -	558-681
On the Route of Absorption of Bacteria from the Peritoneal Cavity	
<i>H. Gideon Wells and O. P. Johnstone</i> - - - - -	582-594
The Effect of the Injection of Killed Streptococci on the Streptococco- Opsonic Index of Normal Rabbits	
<i>J. P. Simonds</i> - - - - -	595-600

	PA. E
Some Observations upon Opsonins in Pneumonia and in Four Streptococcus Infections	
<i>Nathaniel Bowditch Potter and Charles Krumwiede</i> - - -	601-608
Observations upon Certain Properties acquired by the Pneumococcus in the Human Body	
<i>Leo Buerger and Charles Ryttenberger</i> - - - - -	609-616
A Case of Vegetative Endocarditis caused by an Unidentified Pleomorphic Bacterium	
<i>A. M. Pappenheimer and H. H. Satchwell</i> - - - - -	617-640
An Improved and Rapid Test for Indol in Broth Cultures and for the Presence of this Substance in Meat Sugar-free Broth	
<i>D. Rivas</i> - - - - -	641-646
The Relative Rate of Growth of Milk Bacteria in Raw and Pasteurized Clean Milk	
<i>E. Q. St. John and M. E. Pennington</i> - - - - -	467-656
Epizootic Lymphadenitis	
<i>Charles Boxmeyer</i> - - - - -	657-664
